Certificate of Sanitary conditions and Drinking water

This is to certify that I have inspected St. Paul's Academy -School Shahabad, Dist. Rampur, U.P. and found that the school is situated in a very healthy atmosphere, pollution free, well - furnished, cleaned and well- maintained. I further inspected the following:

1. The health and sanitary conditions are good, lavatories / toilets are furnished with fine tiles and equipped with flush system. Urinals are clean and child-friendly.
2. Drinking water is of deep boring. It is stored in over - head tanks and comes through water filters and water coolers which are dispensed through individual taps. Total arrangements are safe and satisfactory.
3. Overall health and sanitary conditions are hygienic, satisfactory and well-maintained.
